We shared an important part of our lives in the 1950s, when we were beginning to figure out our futures. Now, over sixty years later, getting together and reminiscing about those times and how our lives have changed over the years, grants us the opportunity to see each other in a whole new way—grown up, much older and hopefully wiser, enjoying our senior years, that's what! Many attending our reunions have gotten to know classmates we barely knew back then. It's fun trying to figure out who all those old people are and then we realize they're just like us! We can't deny we're, well, getting up there in years, but we just might enjoy getting to know each other more. Give it a try! Join us for a great evening.
